

## Guiding Questions for European Industry Stakeholder Workshop

*Frankfurt/Main, 22 March 2018*

- 1) What can the PHOENIX Initiative do to support the implementation of related technologies in Europe?**
- 2) What are R&D needs and TRL of technologies in the scope?**
  - a. Are these R&D aspects covered in existing initiatives?
  - b. Where are funding gaps?
- 3) Are there existing large-scale projects in Europe?**
- 4) Are there approaches towards industrial symbiosis? Which industries are involved?**
- 5) What kind of large-scale projects would be necessary, to ensure a swift market implementation in Europe?**
  - a. What would be the requirements for first of a kind plants?
  - b. What would be the added value of new large-scale projects as compared to existing initiatives?
